

NEW MILLINERY.

Pert Arrangement of
Plumes Are Favored.

TRAVELING HAT OF BLUE HEMP.

This charming little traveling hat, designed for wear with a trousseau suit of blue cloth, is of blue hemp, the trim being slashed and tied back with ribbon of the same shade. The French plumes are gracefully arranged at the back of the hat.

Springtime in the Home.

A touch of springtime in the living room may be had by a simple change in the window draperies, substituting some light flowered summery fabrics for the winter ones which have grown dingy.

The color scheme of the curtains may be changed and perhaps a different tone in the wall paper brought out thereby.

The wide assortment of beautiful linen and cotton curtain fabrics now to be found in the shops offers many hints by which this change may be brought about.

Cretonnes with the black and rich dark backgrounds are suitable for living and dining room decorations, and, too, they do not show the soil so quickly as do the lighter grounds.

Scrimas and nets in white, cream, tans and ecru are particularly well adapted for the window hangings.

If the wall papers are flowered then select a plain material and stencil a border in two tones of the paper coloring, but if they are plain flowered effects are very desirable for hangings.

Paint with its saving grace will give a brand new appearance to the wicker furnishings, and the window boxes and flowerpots may be made to lend a striking bit of charm and freshness to the rooms if treated to a dress of new paint in bright green or red.

If the housekeeper will observe some of these little ideas before the spring days actually arrive she will find that she has struck a happy tune for the tired creatures in her home for whose welfare she is ever most solicitous.

What Some Women Pay For Algreys.

Many women object to the wearing of algreys on account of the cruelty entailed in their production, but there are other mountaineers who not only give fabulous prices for these adorn-

JEWELLED ALGREYS.

ments, but add to the expense by having the algreys threaded with pearls of great value.

In the cut are algreys worn in the hair by wealthy society women that have cost their owners \$300 and \$500 respectively.

Nine Taxes on a Spring Suit.

"Every woman who buys a spring suit must pay at least nine separate taxes on it," said Mrs. W. L. Plattenburg, a prominent Kansas City club woman, addressing the Athenaeum recently.

"First, there is the tax the farmer pays on his stock, including the sheep. The commission dealer buys the wool and pays another tax upon it. The manufacturer makes up three taxes in the price he fixes—one for stock in trade, one for machinery and one for dye used in coloring the goods. The wholesaler, the merchant tailor, and the retailer follow. Finally, the list must be added the tariff on imported wool.

"There is only one way to amend such conditions and that is, through state and federal constitutional amendments in favor of the land value tax."

BACKACHE
NOT A DISEASE

But a Symptom, a Danger Signal Which Every Woman Should Heed.

Backache is a symptom of organic weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Read about Mrs. Woodall's experience.

Morton's Gap, Kentucky.—"I suffered two years with female disorders, my health was very bad and I had a continual backache which was simply awful. I could not stand on my feet long enough to cook a meal's victuals without my back nearly killing me, and I would have such dragging sensations I could hardly bear it. I had sore-

ness in each side, could not stand tight clothing, and was irregular. I was completely run down. On advice I took Lydia E. Pinkham's Vegetable Compound and am enjoying good health. It is now more than two years and I have not had an ache or pain since. I do all my own work, washing and everything, and never have backache any more. I think your medicine is grand and I praise it to all my neighbors. If you think my testimony will help others you may publish it."—Mrs. OLLIE WOODALL, Morton's Gap, Kentucky.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

DICKENS AS AN ACTOR.

When Boz Became a Writer the Stage Lost a Star.

No one ever paid a much higher tribute to Dickens than did Kate Field. She had the soul of a poet, a discriminating taste in art and literature and wide knowledge of the world. In mentality she was fully as strong as either of her brilliant brothers, David Dudley, Stephen J. or Cyrus W., and she certainly was as good if not a better judge of character.

She once wrote an appreciation of Dickens in which she declared the world lost its greatest actor when Boz became a writer. She gave a description of one of the Dickens readings in New York that was masterly in its vividness of detail. Such versatility as she credited Dickens with displaying as he assumed the character of first one and then another of his creations, the pathos, the humor, the tragedy he put into a tone; the marvelous way in which he stirred the emotions of old and young in his audience, would appear to be a bit extravagant were it not that now and then some old man, looked upon as stern and unemotional, tells with faltering voice how he stood in line all one night to buy a ticket to one of Boz's readings and then goes on to talk just about as Miss Field wrote, only before he gets far along in his story the tears are running down his wrinkled cheeks, his old heartstrings still atone to the language of the master as he saw him.—New York Press.

An Old Time Feminine Fad.

A century or more ago women in England were as keen for fads as they are today. In the journal of the Hon. Mrs. Charles Calvert, edited by Mrs. Warren Blake, we find recorded on May 4, 1808: "I begin a new science today—shoemaking. It is all the fashion. I had a master with me for two hours, and I think I shall be able to make very nice shoes. It amuses and occupies me, which at present is very useful to me." Mrs. Calvert appears to have proved a very apt pupil, for the very next day appears the triumphant entry, "I have just finished a shoe by myself!"—London Spectator.

Old Furniture.

The ordinary furniture polish, very useful when the furniture is comparatively new or well preserved, will not always fill the bill. When furniture is old and badly scratched any desired shade of wood stain mixed with equal proportions of spirits of turpentine will bring back the original shade and newness. Be careful to apply the mixture very evenly, using preferably a flat bristle brush of rather small dimension.—National Magazine.

Had His Doubts.

"Is it really a pleasure for you to have me call?" inquired the young man.

"Why, yes," answered the girl in some confusion. "Why do you ask such a question?"

"Oh, nothing. Only you seem to take your pleasure sadly."—Louisville Courier.

The Demons of the Swamp are mosquitoes. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fires of fever. The appetite flies and the strength fails; also malaria often paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Fretwell of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50c at all druggists.—Advt.
